

ER-3-2646

MEMORANDUM FOR: Chief, Procurement and Supply Office

SUBJECT : Manifesting Shipments

25X1A

With reference to cable from [REDACTED] (In 35694) which we discussed yesterday, when I talked with the Director he said it was his opinion that no shipments should ever be clearly marked [REDACTED] or similar sensitive material unless specific instructions to this effect were necessary and in a particular case. I realize that there are many other items which would be equally as sensitive, and, in accordance with our discussion, it is my understanding that you are taking immediate steps to prevent a recurrence of instances of this or similar nature.
